FCH STRATOCASTER TREMOLO

The "Full Contact Hardware" direct coupling system for Stratocaster style tremolo bridges directly replaces the entire existing bridge. The "eCam" saddle design means unwanted spaces between the bottom of the saddle and the top of the tremolo unit are eliminated. The Babicz Full Contact Hardware replacement tremolo system for Stratocaster style guitars offers unmatched stability, increased sustain, dramatically improved fullness and tone along with complete adjustability.

Fits most Squire Strats, and Mexican made Strats with NARROW 2-1/16" string spacing

FCH-TRMGLD	Gold	240.00

FCH STRATOCASTER SADDLE KIT

Replace your old saddles with this innovative FCH Saddle kit for guitars equipped with a 'Stratocaster' style tremolo bridge (Squire, Mexican). This innovative solution allows for extremely fast and precise individual string height action adjustments as well as accurate individual intonation adjustments.

These six saddles fit most existing Squire and Mexican made Strat Tremolo units with "NARROW", 2-1/16" String spacing.

FCH-KGLD	Gold	185.00

FCH TELECASTER BRIDGE

The "Full Contact Hardware" direct coupling system for Telecaster style bridges directly replaces the existing bridge, in either three or four hole mount systems. The "eCam" saddle design means unwanted spaces between the bottom of the saddle and the top of the tremolo unit are eliminated. The Babicz "Full Contact Hardware" replacement system for "Telecaster" style guitars offers unmatched stability, increased sustain, dramatically improved fullness and tone along with complete adjustability.

Fits 3 (American Standard) and 4 (Ashtray) hole mount Telecaster guitars.

FCH TUNE-O-MATIC BRIDGE & TAILPIECE

A direct replacement for any guitar equipped with the Tune-o-Matic bridge and Stop Tailpiece, this innovative solution allows for extremely fast and precise individual string height "action" adjustments as well as accurate individual intonation adjustments.

There are no gaps or voids to inhibit the transference of the vibration of the string and the resonance of the body.

The "Full Contact Hardware" direct coupling replacement system for "Tune-o-Matic" style bridges mounts directly to the top of the guitar, therefore unwanted spaces between the bottom of the bridge and the top of the guitar are eliminated.
